

Dear Brothers, sisters and friends

There are so many exciting events for our church in March and April. In addition to the visit by the Regional Director of Latin America of the C&MA and the Associate Director of the CCACA, there is also a short term mission composed of five brothers from Zion Alliance in Toronto, to do some construction and repairs for our church. In just two weeks, they have completed many projects, including:

1. Clean up the weeds that are almost 3 feet tall around the church;
2. The storage container used to store church materials, has been insulated, waterproofed, and painted;
3. A new concrete path for pedestrian passage at the main entrance;
4. The cracked top of the septic tank has been repaired, etc.

In addition to the project, we also held a Men's Night" gathering, the STM team members share their testimonies and mingled with those men attended. Thank God more than 10 people attended that night.

We reopened children's Sunday school in March as a trial. Although we are under staff, we started the first Sunday with only 3 children, but it increased to 11 in mid-April. And on top of Sunday school, we also host an event of "Looking for Easter Eggs" on Easter Sunday. I'm really grateful to see these children having a great time and they are indeed God-Send.

On the Sunday April 30, we held a dinner party because of the labor holiday is on May 1. We have a short video, children song presentation, games, and then dinner, which are simple and delicious. After several years of the epidemic, the church is now fully open, and the enthusiasm of friends and neighbour has not diminished. I am so thankful for God's gracious provision.

Please continue to pray for the development of the work in Aruba :

1. Children's Sunday school students and teachers, pray for God's guidance;
2. The young generation of the church, allows them to take root in their faith and to be active participants in church ministries ;
3. Ministry development, gospel outreach, ask God to touch people's hearts;
4. Leadership development, that God to increase their confidence and be loyal in their ministries;
5. The steady and healthy grow of the recently formed small group in B-Island (Bonaire)

Thank you for your support and encouragement in the past. You can support my ministry in Aruba through the following web page: online dedication through the preaching meeting:
