

Aruba Ministry Update

It has been a while since my last communication of the ministry in Aruba. Would like to update you what has been happening in the past couple of months:

- a. In late July, we have a team from Toronto hosting a VBS event, 20 children attended. Several children except Christ as their personal saviour;
- b. In September, an EMAS team from Toronto came to AAC, amount them including massager, physiotherapist, social worker and nurse practitioner. The respond was overwhelming and during the treatments and consulting times, seven people accept Christ or reconfirm their faith.

Please play for Ellen and the Core group:

1. To follow up those who have confessed their faith and the possibility of a baptismal class in the near future.
2. The possibility of starting of a new English speaking group for the second generation.

July VBS

Sep EMAS team
